**We Clean, Wash, Store and Repair Cars.****FARMERS TO HOLD  
SERIES OF MEETINGS****Will Discuss Seed For Crops And  
Examine Grain Standing In  
The Field**

Seed corn should be field selected and properly stored. To encourage this work a series of meetings in the county has been planned. These meetings will either be at the home of the crop men or on farms that he selects. Per cent. of stand, insects and cultivation will all receive attention while the corn is yet standing and the result of the season's work can be seen.

Thursday, October 24—Campster K. S. Tisdale 10 a. m.  
Friday, October 25, Oak Ridge, Wash Miller, 1:30 p. m.  
Monday, October 27, Neely's Landing, J. F. Oliver, 1:30.  
Tuesday, October 29, New Wells, E. R. Hitt, 10:00 a. m.  
October 29, Pocahontas, Martin Klenninger, 1:30 p. m.  
Wednesday, October 30, Fritland Charles Shuck, 10 a. m.  
October 30, Rock Hill, Ed. Young.  
Monday, November 4, Cane Creek, A. C. Dickman, 10 a. m.  
November 4, Burfordville, H. W. Mavers, 1:30 p. m.  
Wednesday, November 6, Egypt

Mills, Isaac Hobbs, 1:30 p. m.

Thursday, November 7, Whitewater J. H. Siler, 1:30 p. m.

Nov. 8 Round Pond, J. A. Roberts, 1:30 p. m.

There are now 15 communities in seed corn is the first work undertaken with the Farm Bureau organization. We are particularly anxious to make this meeting a success. Come out and bring all of your neighbors.

Seth Babcock.

**FOOTBALL GAMES IN FRANCE**

Director Anguish of Paris Division of Y. M. C. A., Makes Request for Pair of Pants.

Judging from a request made in the Paris edition of an American newspaper recently, there is going to be a lot of football played in France this fall. The Hindenburg line is not the only one that is going to be smashed over there.

J. L. Anguish, director of athletics for the Paris division of the Y. M. C. A., recently asked for a pair of football pants through the columns of a newspaper. He explained that the pair of pants was wanted to serve as a pattern from which he hopes to have 12,000 pairs made for the use of the soldiers.

Inasmuch as the great football stars of the past decade from the East, West, North and South are with the American expeditionary force abroad, there should be some real all-American games staged behind the lines soon. That is, if Mr. Anguish gets that pair of pants for a pattern.

**Stellite, Metal That Will  
Not Rust—Hardness and  
Other Qualities of Steel**

Everybody knows that metals undergo changes through the influence of oxygen and moisture from the air—these two bodies being always ready for chemical business. Therefore, as everybody also knows, steel knives and other familiar utensils require continual cleaning because they rust so easily. Steel is even more susceptible to rust than iron.

The chemists' problem in this case has been to make a metal which is permanent and will not rust, having, at the same time, the hardness and other qualities of steel. That is, a metal as "tough" or permanent as gold and as hard and strong as steel.

Elwood Haynes, a member of the American Chemical society, relates in Metallurgical and Chemical Engineering of a long series of experiments which he made during a period of many years, especially in alloys of cobalt, chromium, tungsten and molybdenum. He finally succeeded in making some of these metals so hard that they can scratch any steel in existence. He has given the name stellite to the series. Stellite may be indefinitely heated without showing oxidation, except for the fact that the surface takes on a permanent blue color. Lathe tools, milling cutters, saws, drawing dies, boring tools, drills, etc., have been made from stellite as well as surgical and dental instruments which have been placed on the market. Tablespoons and small spoons of stellite have been in use for six years and they may last, it appears, for a thousand years more without tarnishing.

**Mother's Cook Book.**

Age is another opportunity no less Than youth itself, though in another dress; And as the twilight fades away The sky is filled with stars invisible by day.

**What to Eat.**

If a cupful or more of noodles are left from dinner save them and in a day or two prepare

**Ham and Noodles.**

Butter an earthen dish, put into the bottom a layer of cold boiled noodles, add a layer of cold boiled ham, cut in bits, then another layer of noodles and so on until the dish is full. Beat an egg with one cupful of milk and pour into the dish. Cover with crumbs, dot with butter and bake in a moderate oven.

**Deviled Chicken.**

Make a sauce of salt, pepper, dry mustard, paprika, grated lemon peel, lemon juice, Worcestershire sauce and a few drops of tabasco sauce. Add a tablespoonful of butter and cook all together. When the sauce boils add cubes of cooked chicken; serve when well cooked.

**Oysters a la Creole.**

Chop fine one clove of garlic, a green pepper and a small onion. Season with salt and paprika and cook in two tablespoonfuls of butter. Add a cupful of tomatoes and a cupful of parboiled oysters. Serve very hot on toast, or cover with buttered crumbs and bake.

**Clam Cutlets.**

Take a quart of clams, chopped fine and a cupful of dried breadcrumbs. Season with salt and pepper, a teaspoonful of tomato catsup and a teaspoonful of minced parsley. Bind with raw egg or with a very little cream sauce. Shape into cutlets, dip in egg and crumbs and fry in deep fat.

**Deviled Crabs.**

Take one can of minced crab meat, add the yolks of two hard cooked eggs, mashed fine, a teaspoonful of Worcestershire sauce, salt and paprika, the juice of half a lemon, a teaspoonful of dry mustard, and a few drops of tabasco sauce. Add enough dried breadcrumbs to make a paste. Fill crab shells with the mixture, cover brown. Ramekins may be used if the shells are not at hand.

**Panned Oysters.**

Cover the bottom of a baking dish with oysters and with enough of the liquor to steam them well. Cover tightly and bake from five to ten minutes in a hot oven. Serve on buttered toast and pour the hot juice over the toast.

**Sour Cream Pie.**

Take one cupful each of sour cream, raisins, and honey, one egg, a tablespoonful of vinegar, a half teaspoonful each of salt, cinnamon, and nutmeg, with a fourth of a teaspoonful of cloves. Bake in two crusts.

*Nellie Maxwell***They Run on Peat**

A Norway firm is advertising engines that can be operated with peat gas instead of benzine or gasoline. The alterations have been made in accordance with a Danish invention, which makes it possible to use this fuel. It is claimed several thousand engines are being used in Denmark successfully. The new system is stated to consume from one to two kilos of peat, 2.2 to 4.4 pounds per horse power, according to the quality of the peat.

**AUTOMOBILES ARE VERY NECESSARY IN  
MILITARY SERVICE OF UNITED STATES**

Ammunition Trucks Awaiting Darkness to Cover Their Trip to the Front—First Division Ammunition Train.

There is no doubt that the motorcar is a necessity in business and civil life today. Neither is there any doubt that it is equally necessary in the military service of the United States, both overseas and on this side.

The quartermaster corps, the aviation section of the signal corps, the ordnance department and other sections of the army are using hundreds of motorcars and motortrucks, and adding great numbers to the fleets already in service here and across the Atlantic.

Though the government has asked that manufacturers curtail their production of passenger cars for civilian use, there has been no curtailment so far as military cars are concerned. These are leaving factories in great fleets, being driven overland to army camps or to Atlantic seaports for shipment abroad.

"The army has taken a leaf out of the book of civilian life, and quickly learned that efficient, economical transportation of men and materials, and rapid communication between distant points, is best accomplished by motor-vehicles," said C. R. Dashiell, Chicago automobile agent.

**NEW YORK'S FAMOUS THOROUGHFARE LOSES  
SOME OF ITS GREAT POMP AND CEREMONY**

Before and After Adoption of Gasolineless Edict in Gotham.

New York's most famous thoroughfare, Fifth avenue, is soon to lose some of its exclusive pomp and ceremony. The new edict of the fuel administration, asking the automobile owners to use their cars less, will detract that wonderful scene of constant traffic along the famous avenue.

These two photos show how Fifth avenue looks at the height of the shopping hour, and also when the rush of traffic has subsided. It is almost impossible to state how much gasoline would be saved by the observance of the edict, but the amount would be easily noticeable. These two photos were made at the busiest corner in the world, Fifth avenue and Forty-second street.

**YANKEE GAMES HAVE MADE IMPROVEMENT  
IN PERFORMANCES OF SOLDIERS IN FRANCE**

AMERICAN BOYS PLAYING BASEBALL IN FRANCE.

(By E. A. BATCHELOR.)

American athletic sports are serving a double purpose among French soldiers. Primarily introduced for the amusement of the Poilus, the Yankee games have resulted in improving the performances of the men in purely military duties. Naturally the Y. M. C. A. Foyer du Soldat, which has charge of this work, is feeling proud.

**Throwing Hand Grenades.**

As a result of playing baseball, the soldiers at a camp where J. A. Nelson represents the Red Triangle athletic department are throwing hand grenades 40 meters, instead of the average of 30 that prevailed before the Yankee national game was introduced.

An increase of ten meters in the range of one of these deadly missiles means more "good Boches," because,

as the plainsmen used to say about the Indians, the Frenchman says that the only good German is a dead one.

The men, in addition to throwing further, are also throwing more accurately. Some of them were many feet "off the target" before they were introduced to baseball.

**Interest in Other Sports.**

In addition to baseball, basket ball, volley ball, association football, croquet and tennis are flourishing. The French fighters are taking such interest in these sports that some days more soldiers will appear than can be accommodated with the facilities at hand. Only when the day's artillery program has been of such an exhausting character that it has taken all the men's "pep" is there any lack of attendance on the playground.

No. 5 White Corn Syrup, per can.	.47	.50

Note—The above is a statement of the prices that should be charged for the staple food articles named by cash and carry and credit and delivery retail grocers, respectively, for the week beginning Thursday, October 17. Retail grocers of the city of Cape Girardeau should not sell these articles of food at a higher price than the prices given. They should sell at lower prices if they purchased their stocks of goods at wholesale prices below the current wholesale prices of these articles. These are the prices fixed for the week by the Price Interpreting Board of Cape Girardeau County, under the direction of the Federal Food Administration. Merchants outside of Cape Girardeau who have an additional expense for their goods on account of transportation cost, in excess of the cost at Cape Girardeau, may charge slightly higher prices than the above.
